CELLULAR SHADES OR COLLECTION

AT A GLANCE

Decorate your home with elegant and unique Cellular Collection by AD blinds. Cellular Blinds is considered to be an excellent window control blind, thanks to its innovative honeycomb style structure. The air is trapped between the cells creating an excellent insulation which controls the temperature inside the room.

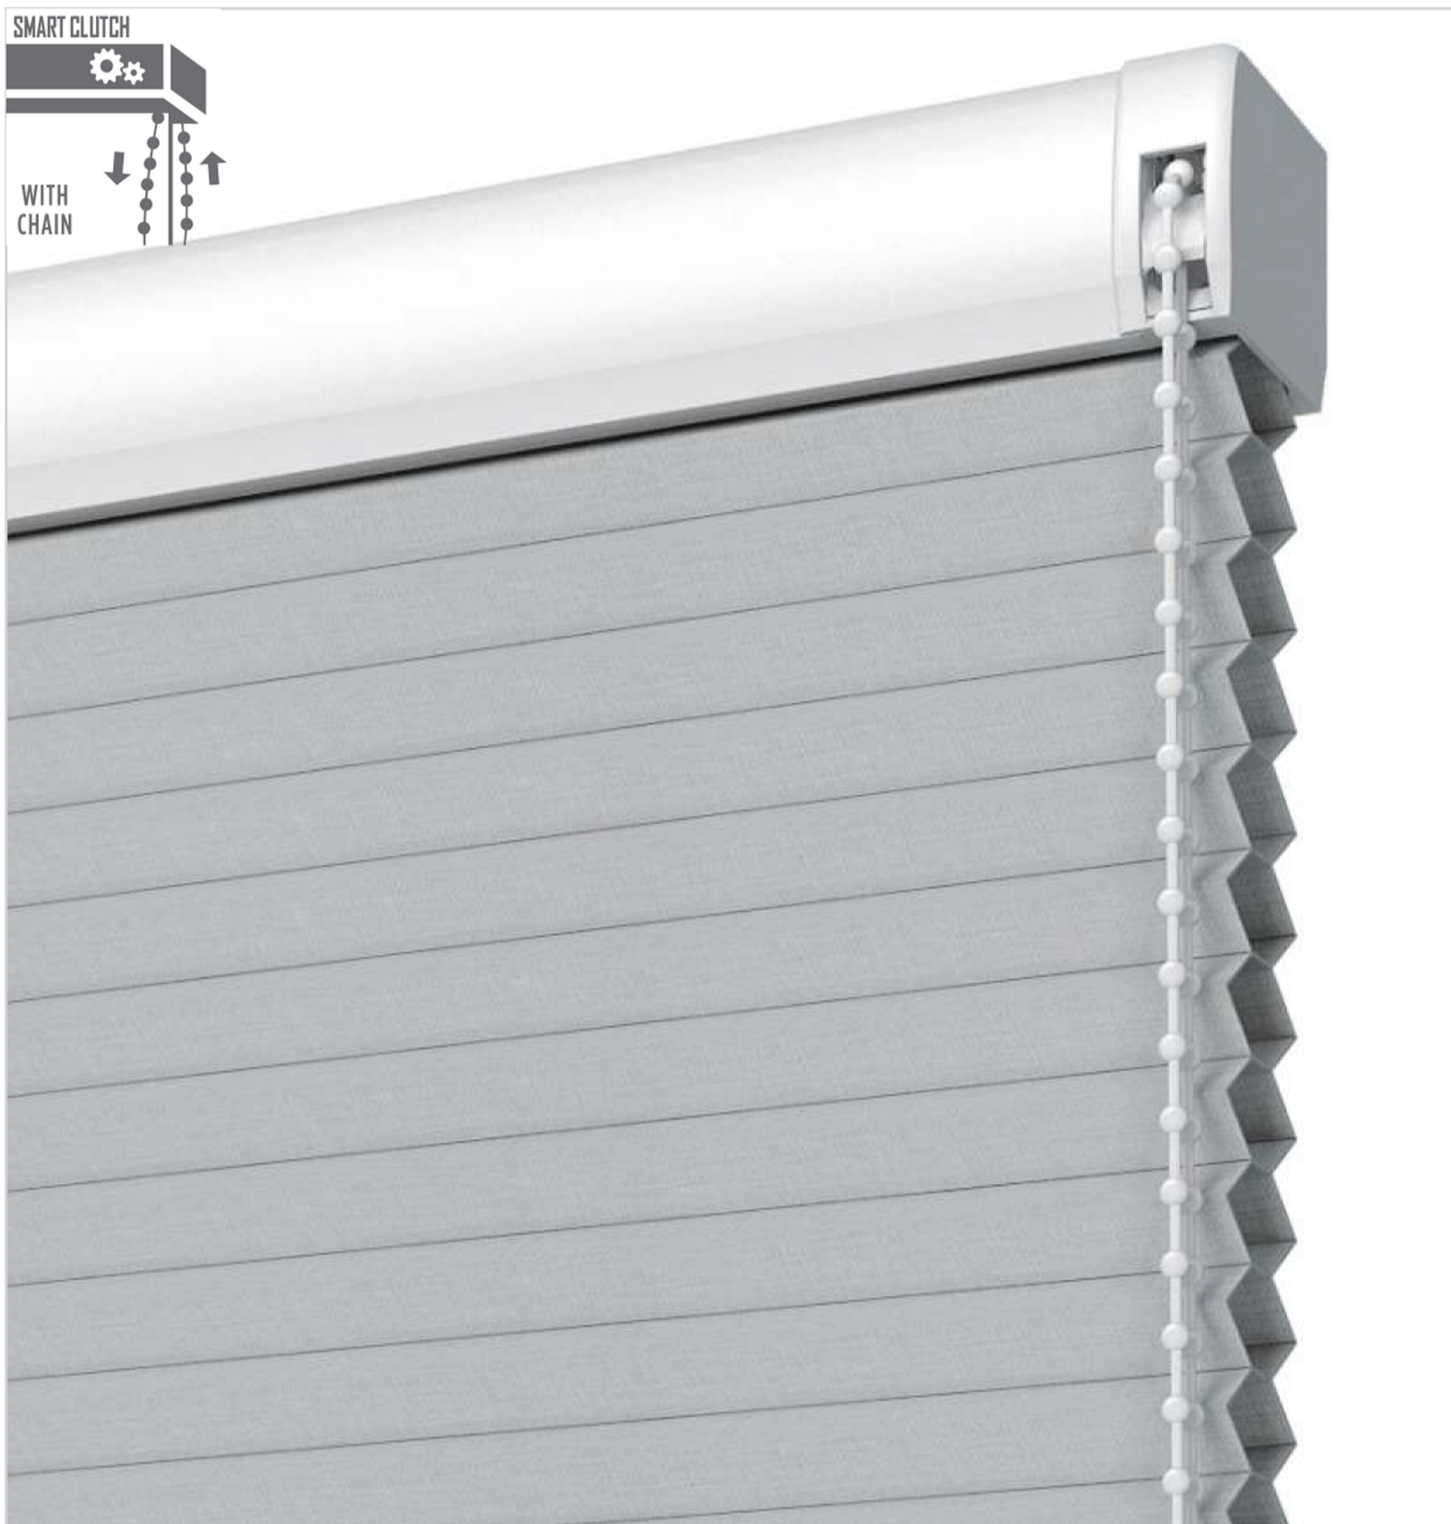

One window many solutions

COMFORT & SAFETY

1. Operate with remote control
2. 100% wireless motorization enables easy and quick installation. No additional required
3. Manual override in absence of remote
4. Smart system
5. Integrated li-ion rechargeable battery with micro USB
6. Couliasse cellular motor is designed with a smart rotatable motor head that makes the motor suitable for both sides of the system

ADVANTAGES OF SMART SYSTEM

Head rail with special cavity for the middle rail. seamless connection between both rails. No light gap. clean design.

The cords in the system always remain taut, no loop occur when the system is operated manually or with motorization.

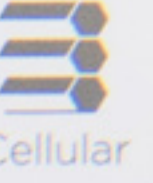

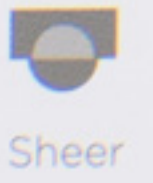

A patented mechanical top down / bottom up stopper prevents the bottom rail from passing middle rail.
